## PROFESSIONAL SUMMARY

---

Product and web designer with 4+ years of experience delivering production digital experiences for enterprise and small-business clients. Combines User Experience (UX) and User Interface (UI) design with hands-on front-end skills in HTML, CSS/SCSS, and JavaScript, carrying work from wireframes to developer handoff or a live, responsive build. Builds design systems that keep design and engineering aligned, and cuts cost by producing in-house what teams typically outsource.

## CORE SKILLS

---

**Design:** Product Design, User Experience (UX) Design, User Interface (UI) Design, Design Systems, Component Libraries, Wireframing, Prototyping, Information Architecture, Interaction Design, Responsive and Mobile-First Design, Web Accessibility (WCAG), Developer Handoff, User-Centered Design

**Front-End Development:** HTML5, CSS3, SCSS/Sass, JavaScript (ES6+), Astro, CSS Animation and Motion Design, REST APIs, SQL, Git and Version Control, Cross-Browser Testing

**Platforms & Tools:** Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator, Adobe After Effects, ION Interactive, Adobe Experience Manager (AEM), Adobe Analytics, Marketo, Knack, Supabase, Cloudflare, Stripe, Resend, DNS Configuration, Jira, Agile Collaboration

## PROFESSIONAL EXPERIENCE

---

### Founder, Product Designer & Web Developer

*Ouro's Designs | Grand Prairie, TX (Remote) | 11/2025 - Present*

- Founded an independent design and development practice, taking client web projects end to end from UX strategy and site architecture through high-fidelity UI in Figma to front-end build on a reusable Astro and SCSS component system.
- Designing and building a full website for an independent auto repair business, including a customer portal where clients enter a ticket number to track repair progress, scoped to cut the owner's manual administrative work.
- Architect and deploy production sites on Cloudflare with Supabase back ends, Stripe payments, and Resend transactional email, including DNS configuration and deployment workflows.
- Building a direct-to-consumer digital product storefront covering brand identity, storefront UX, checkout, and delivery; designed and produced the initial catalog of downloadable creative assets.

### Web Designer

*Lumen Technologies (CenturyLink) | Remote | 04/2022 - 11/2025*

- Led end-to-end web design across enterprise digital experiences, from UX strategy and wireframing through high-fidelity UI and developer handoff, delivering annotated designs and specifications that engineering implemented in Adobe Experience Manager (AEM).
- Built and maintained a design system of 40+ reusable components, patterns, and documentation, improving consistency across 70+ pages and streamlining collaboration between design and engineering.
- Served as the team's primary builder and subject-matter expert for ION Interactive, producing a wide range of interactive web components and infographics and acting as point of contact for vendor partner Rock Content.
- Developed a standalone search experience outside the CMS in HTML, CSS, and JavaScript, implementing Adobe Analytics tracking to measure user engagement.
- Eliminated the team's reliance on a premium external marketing agency by producing interactive content in-house, removing per-project agency fees from the budget and increasing the volume of interactive work the team could ship.
- Produced multiple design directions and screen mockups for stakeholder review and usability evaluation, iterating on feedback to refine final interfaces.

## EDUCATION & PROFESSIONAL DEVELOPMENT

---

**Bachelor of Arts, Innovative Design & Architecture** | Colorado College | Colorado Springs, CO | 2019

**Self-Directed UX & Front-End Program** | 2021 - 2022 | UX/UI design, HTML, CSS, JavaScript, SQL, Git
